

### Feature:

\* The paperless conference Android terminal is responsible for document distribution, browsing and reading, document annotation, smart sign-in, voting, electronic whiteboard, electronic nameplate, conference communication, conference services, conference management and document presentation during the conference process. Featuring rich functions, simple interface and convenient operation, it can meet various high-end conference occasions, as well as important government affairs, business, enterprises and institutions, and large-scale event venues.

\* Support viewing temporary conference files, and support uploading local files. When a new file is delivered, the conference terminal has a small red dot prompt.

\* Support PDF document annotation function, support common document formats (doc/docx/xls/xlsx/ppt/pptx/pdf/picture), annotate and save documents, and support multi-person interactive annotation.

\* conference notes can be made at any time during the conference and can be downloaded locally.

\* Support screen broadcast, participants can share the local screen to other participants during the conference.

\* After the conference, the terminal will automatically clear the local conference files.

### Specifications:

CPU	RK3399 ARM six-core 64-bit processor, max clock speed 2.0GHz
RAM	4GB
Storage	64G
Network card	10/100/1000M adaptive
Standard port	6×USB (3.0/2.0), 2×HDMI, 2×LAN, 1×MIC-IN, 1×LINE-OUT port, 1×DC port
System	Android system
Working environment	Ambient temperature: -10-60 °C; relative humidity: 5%-85%, no condensation
Working power	DC12.5V/3A
Power consumption	36W
Dimension	126×134×36.5mm (W×H×D)
Weight	0.65Kg
Colour	Silver
Cooling method	Passive cooling (fanless cooling)
