

Switch

FS16PS

Feature:

- * 16 10/100M adaptive RJ45 ports, port 1~15 support IEEE802.3af standard POE power supply.
- * POE power of each port can reach 15.4W, and the maximum total POE output power is 123W.
- * Support IEEE802.3X full-duplex flow control and Backpressure half-duplex flow control.
- * Support port automatic flipping (Auto MDI/MDIX) function.
- * All ports have wire-speed forwarding capability.
