

Headphone

TS-930

Features

- * Support listening and speaking, and the listening and speaking plugs are designed independently.
- * The volume adjustment has a scroll wheel design.
- * Retractable microphone, more convenient for storage.
- * Highly sensitive unidirectional microphone to eliminate unnecessary background noise.
- * The scale identifies the retractable head beam, making it easy to accurately find the wearing length of each head type.
- * The body is light and easy to wear on the head, making it easy and stress-free to wear.
- * Large-size earmuffs provide better wrapping effect and effectively reduce environmental noise interference.
- * Neodymium boron iron strong magnetic speaker, reproduces the original sound, dynamically balances the volume, and enjoys high-fidelity and delicate sound quality.

Specifications:

Line length	2m
Headphone and unit interface	3.5mm stereo three-section plug × 2, green is for headphones, red is for microphone
Drive device (speaker)	40mm
Frequency response	20~20KHZ
Impedance	32Ω±15%
Sensitivity	103db±5db
Microphone frequency	100~7KHZ
Microphone sensitivity	-42+/-3dB
Microphone size	4×1.8mm
Volume (L×W×H)	178×95.5×183
Weight	228.4g
