

Description

The plug-in input card is used with a centralized host to achieve 2-channel 4096×2160@30Hz and below resolution image input function .

Feature

- *Equipped with 2-channel optical fiber input interfaces , supporting resolutions of 4096×2160@30Hz and below ;
- *With seamless switching function , there is no flickering or black screen during the switching process ;
- *Supports hot swap of boards ;
- *Supports power-off on-site switching memory protection function and unique ESD static protection function .

Specification

Fiber optic input	2 × LC sockets, support single-mode fiber 20 Km , multi -mode fiber 500m
Indicator lights	4 × green LED lights for access indication
Power supply	DC 12V
Rated power	10W
Dimensions (L x W x H)	233 mm × 202.8 mm × 19.7 mm
Weight	0.35 kg
Environment temperature	-10 °C—+45°C
Environment humidity	10%-80% (no condensation)
