

## Input Card TV-68E2IPI

### Audio and video IP decoding card embedded software V3.099

## Description

The plug-in IP input card is used with a centralized host to realize the H.264/H.265 format image input function

## Feature

- \*Equipped with 2 standard RJ45 Gigabit network ports, supports decoding of 4-channel RTSP video streams ; supports access to ONVIF protocol and GB/T 28181 standard video images ;
- \*Supports H.264/H.265 format image input function ;
- \*A single card can decode 4 - channels of 4096 × 2160 @ 30fps simultaneously ;
- \*With seamless switching function , there is no flickering or black screen during the switching process ;
- \*Supports power-off on-site switching memory protection function .

## Specification

Interface type	2×RJ45 ports
Indicator lights	6× green LED indicators for connection indication and operation indication
Environment temperature	0 °C—+45°C
Environment humidity	10%-80% ( no condensation )
powered by	DC 12V
rated power	8W
Dimensions (L x W x H)	233 mm × 202.8 mm × 19.7 mm
weight	0.35kg
