

## Description

The pallet accessories support 220V AC input to 12V DC output, and can be freely selected to install 8 optical KVM system 4K60 transmitters or 4K60 receivers according to needs .

## Feature

\*Supports 220V AC input to 12V DC output;

\*Supports freely choose to install 8 optical KVM stations with 4K60 transmitters or 4K60 receivers .

## Specification

Capacity	8 optical KVM system transmitters or optical KVM system receivers
Power input	1.8A/115V AC 1A/230V AC
Output	12V DC
Maximum current	16A
Overload protection	110~140% of rated output power (can be automatically restored after abnormal load conditions are removed)
Operating temperature	-10~+45°C
Maximum power	200 W
Size (L×W×H)	482.6mm×200.8mm×322.2mm
Weight	5.6K g
