

Description

It consists of two 44mm tweeter drivers and a 12" mid-woofer, providing excellent alto and treble performance and high SPL. It is small in size, light in weight, and easy to install. The adjustable hoisting system in precise design makes it really convenient for installation. The fiberglass housing to a great extent is impact-resistant and water-proof. It is mainly used in large stadiums, large theme parks, and large cultural squares, etc.

Specification:

Model	KP-3
Impedance	8Ω
Frequency response	130Hz~18KHz
Power	300W
Sensitivity	104dB
Max SPL (dB)	129dB
Coverage angle	(H) 50° (V) 50°
Tweeter	φ44 titanium diaphragm tweeter ×2
Woofers	12" mid-woofer ×1
Surface treatment	Black spray paint
Connecting socket	Two 4-pin SPEAKON sockets 1+ 1-
Dimension	700×550×690mm (H×W×D)
Weight	49Kg
