

Description

It works with the professional amplifiers and audio processors. It can be used as a monitor speaker in theaters, large conference halls, multipurpose halls, etc.

Feature

- * Adopt a mid-woofer and an annular polyethylene diaphragm compressed tweeter.
- * 15mm plywood housing, light weight, wear-resistant spray paint treatment, external hard hexagonal iron mesh, and dust-proof cotton inside.
- * The frequency divider in precise design optimizes the vocal MF performance.
- * The cabinet has a polygonal structure, and the monitoring angle can be adjusted according to different venues.
- * With waterproof function.

Specification:

Model	KP-612TW
Impedance	8Ω
Frequency response	50Hz-20KHz
Rated power	400W
Peak power	1600W
Sensitivity	99dB/W/M
Maximum SPL (nominal/peak)	125dB/131dB
Coverage angle	(H)80°(V)60°
Tweeter	1.7" compressed tweeter×1
Woofers	12" woofer×1
Protection class	IP55
Dimension	380×585×440mm (H×W×D)
Weight	20.5Kg
