

Description

It works with the professional amplifiers and audio processors, forming a set of high-end professional sound system with perfect sound effects and outstanding vocal performance. It is applicable to music bars, large multipurpose halls, auditoriums and outdoor places, etc.

Features

- * Adopt two 15" mid-woofer units and a 75mm compressed neodymium magnet tweeter unit.
- * 18mm birch housing, light weight, wear-resistant spray paint treatment, and dust-proof mesh cotton inside.
- * Frequency divider in precise design optimizes the power response and MF vocal performance.
- * Multiple screw hoisting holes, various installation methods.

Specification:

Model	KP-8152
Impedance	4Ω
Frequency response	38Hz-20KHz
Rated power	1000W
Peak power	4000W
Sensitivity	100dB/W/M
MAX SPL (rated/peak)	130dB/136dB
Coverage angle	(H)100° (V)80°
Tweeter	75mm compressed neodymium magnetic tweeter ×1
Woofer	15" woofer ×2
Dimension	1220×530×510mm (H×W×D)
Weight	55Kg
