

Professional Full-range Speaker

KT-D15

Description

It is suitable for music venues with high requirements for continuous large dynamics, such as pubs, party karaokes, HI rooms, clubs, dance halls and small indoor performance venues.

Features

- * Adopt a 15-inch woofer and a 1.5-inch compression driven tweeter.
- * The cabinet is made of 15mm high-strength birch laminate, with good rigidity, high internal resistance, good moisture resistance and temperature resistance. The surface uses water-based paint treatment, high-grade and wear-resistant.
- * The clear and layered sound performance ensures the perfect reproduction of music in high sound pressure environments, providing the best sound quality and maximum flexibility.
- * Professional speaker sockets and plugs with good electrical characteristics.
