

## Active Speaker

### TF-20260H

#### Description:

It is applicable to the sound reinforcement needs of small places such as multimedia classrooms, ordinary classrooms, conference rooms, training rooms, and specialty stores.

#### Feature:

- \* Support 1-channel mic and volume adjustment, 1-channel stereo line input and volume adjustment, and 1-channel stereo line output.
- \* With built-in mute function, the microphone takes precedence over the line input.
- \* With a 100V constant voltage input interface, it is prior to local broadcasting function.
- \* Built-in HIFI high-end speakers, built-in electronic crossover, independent tweeter and woofer amplifier drive.

#### Specification:

Model	TF-20260H
Rated output power	$\geq 2 \times 25W$
Output impedance	4-8 $\Omega$
Frequency response	40Hz~20KHz( $\leq \pm 2dB$ )
Adjustment function	1 MIC volume adjustment, 1 AUX volume adjustment
Input sensitivity	AUX IN: 350Mv $\pm$ 20MV/10K $\Omega$ ; MIC: 5MV $\pm$ 0.5MV
Line output	$\geq 1V$
SNR	$\geq 70dB$
THD	$\leq 1\%$
Operating temperature	5 C ~ 40 C
Relative humidity	20% ~ 80%, no condensation
Power consumption	$\leq 60W$
Power voltage	~220V 50Hz
Dimension (W×H×D)	162×240×225mm
Weight	7.5kg
