

Description

It can be used in high-end conference room as the main speaker, and in multipurpose hall, auditorium and other places as the auxiliary speaker.

Features

- * Coaxial speaker design, precise frequency division, clearer human voice.
- * Use a 10-inch mid-woofer and a 1.3-inch coaxial compressed tweeter.
- * 15mm plywood housing, wear-resistant spray paint treatment, and hoisting holes with adjustable angles.
- * Small cabinet design with high power, light weight and exquisite appearance.

Specification:

Model	TS-10M
Impedance	8Ω
Frequency response	65Hz~20KHz
Rated power	300W (AES)
Peak power	1200W
Sensitivity	96dB/W/M
Max SPL(rated/peak)	121dB/127dB
Coverage angle	(H)80° (V)70°
Tweeter	1.3" compressed coaxial tweeter x 1
Woofer	10" woofer x 1
Dimension	348×318×300mm (H×L×W)
Weight	10.5Kg
