

Ceiling Speaker

TS-206M

Feature

- * Composed of a 6.5-inch subwoofer and a 1-inch rotatable dome tweeter.
- * With a coaxial 2-way design, the precisely engineered crossover optimizes the response of the vocal section.
- * The tweeter and subwoofer are designed with an inclined angle, which effectively solves the problem of insufficient high-frequency directivity and facilitates on-site debugging for users.
- * Using injection molded PP diaphragm to achieve high-fidelity reproduction of human voice.
- * Frameless magnetic mesh cover design.
- * Built-in adjustable directional tweeter.
- * Suitable for use in indoor places such as high-end conference rooms, hotels and clubs.
