

Active Speaker

TS-603CP

Feature

- * Built-in Class-D amplifier.
- * Under voltage/over voltage/overload protection.
- * DSP processing functions: equalizer, high-pass filter, low-pass filter, treble enhancement, bass enhancement, limiter, gain, etc. Support digital signal sampling rate of 48k/24bit.
- * Support switched power supply.
- * Widely used in various small and medium conference rooms, banquet halls, multipurpose halls, etc.

Specification:

Model	TS-603CP
Rated power	200W
Peak power	800W
Input port	Single terminal input/balanced input
Frequency response	80Hz-20kHz
DSP interface	Adjustable PC interface
Speaker unit	3-inch full-range speaker ×6
THD + N	< 0.3%
SNR	>80dB
Dimension	760×150×195mm
Net weight	9.8Kg
