

Headset Microphone

T-52G

Specification:

Cartridge	Condenser microphone (headset)
Antenna	Built-in helical antenna, wearable transmitter adopts 1/4 wavelength whip antenna
Output power	High power 30mW; low power 3mW
Discrete suppression	-60dB
Power supply	2 AA 1.5V alkaline batteries
Battery life	About 10h at 30mW, about 15h at 3mW
Function	Adopt true diversity reception, effectively avoid frequency interruption and extend the receiving distance
Sound quality	Rich medium frequency, magnetic and powerful sound quality
Weight	0.06Kg (ear wearing), excluding battery
Dimension	83×63×22mm (L×W×T) (headset)
