

Feature:

- * Support real-time transmission of online microphone (wired and wireless) data to the computer;
- * Support truncating data on the computer side, with data filtering function;
- * Support the server aviation port power supply, save the cost of external power supply and avoid complicated wiring;
- * Support online microphone recording through PC software.

Specification:

Model	TS-0322
Power supply	Aviation port DC36V power supply
RJ45 network port	Connect to the PC network port; connect to the switch for wireless communication
Static power consumption	2.5W
Working temperature	-10°C~+60°C
Relative humidity	20%~80% relative humidity, no condensation
Colour	Silver white
Weight	350g
Dimension	156mm*108mm*32mm (L*W*H)
