

Microphone pole

TS-M250S1

Feature

* Support pickup function.

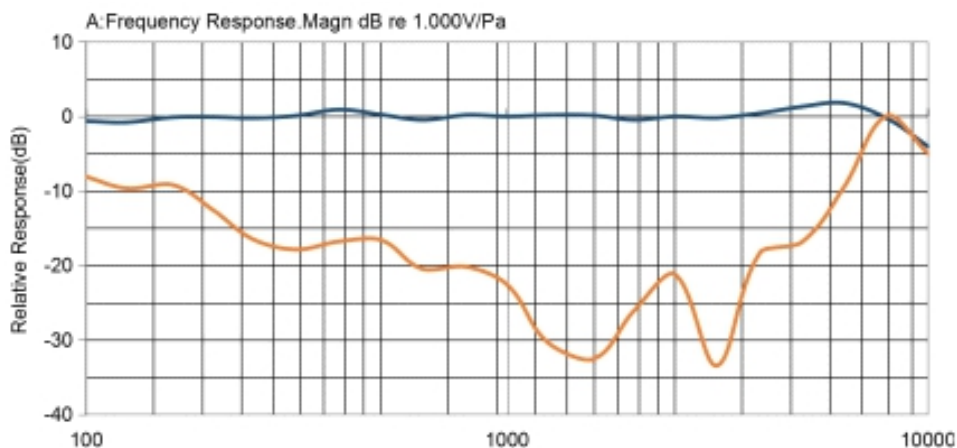

* Support microphone status indication function, the red light is for speaking, and the green light is for speaking application.

Specification

Microphone type	Cardioid directional electret microphone
MIC directivity	Cardioid
Frequency response	80Hz~16kHz
Microphone input impedance	680Ω
Sensitivity	-41±1.5dB (0dB=1V/Pa, at 1KHz)
Max SPL	120dB
SNR	>65dB(A)
Power supply	Microphone power supply
Microphone pole length and color	250mm Black
Weight	74g

Φ9.7 Microphone core graphics coordinates
