

Directing Console

TS-0650B

Description:

The 8-inch touch console is installed on the podium in a recording classroom, and is connected to the recording controller through the network, which is convenient for the teacher to control the recording process.

Feature:

- * The 1.8-inch waterproof and dustproof glass panel is embedded in the classroom podium, supporting status display such as control, connection, and operation.
- * Remotely control the recording controller by connecting to the teacher computer.
- * Support one-key start recording, pause recording, and stop recording functions.
- * Support one-key switching of movie mode screen.
- * Support one-key switching of directing mode, including auto, semi-auto and manual directing.
- * Support interactive remote screen switching.

Specification:

Model	TS-0650B
Electrical parameter	12V DC
