

Cooling Rack

TV-MA724-8U

Description

It is an 8U cooling rack for the distributed integrated management platform terminals. It integrates power management, heat dissipation, and cabinet installation of distributed terminals. The cooling rack makes it easy to disassemble and replace the terminals; the excellent heat dissipation effect ensures the stability and reliability of the distributed system; the rack-mounted installation looks neat and beautiful.

Feature

- * Distributed terminal power management, 8 DC12V@1.5A output, unified management;
- * Multi-fan heat dissipation design, excellent heat dissipation performance, ensuring the stable operation of the system;
- * Multi-model compatibility design, terminal models can be flexibly matched.
- * The lock fixing design is convenient for terminal disassembly and replacement.

Specification:

Power supply	~110-240V 50-60Hz
Output port	8 DC12V@1.5A power output interface
Installation capacity	8 mounting slots
Ambient temperature	-10~+45°C (working temperature), -15~+45°C (storage temperature)
Relative humidity	5%~90% (working state)
Maximum power	120W
Dimension	484*161.7*364.1mm (L*W*H)
Weight	3.2kg
