

Conference Information Release Terminal

TR-0640

Description:

The conference information release terminal, by connecting to the conference management system, controls the program playback on the entrance screen, and realizes the display and release of digital conference information such as texts and pictures.

Feature:

- * Support the display of conference information, including custom display of the conference theme, conference room location & name, conference time, participants, etc.
- * Support the scene interaction of the conference entrance screen, and synchronize the agenda to the entrance screen.
- * Support the entrance screen sign-in function, the initiator can send the conference sign-in QR code to the entrance screen.
- * Support conference information cache, and offline playback function.

Specification:

Model	TR-0640
Screen	10.1 inches
Resolution	1920*1200
Touch screen	Capacitive multi-touch screen
CPU	RK3288 4-core A17
Main frequency	Max frequency is 1.8GHz
RAM	DDR3 2G
Memory	EMMC 16G
Communication interface	1 RJ45 Gigabit Ethernet port, 1 OTG port
Infrared signal output	Support 1 infrared signal output
Infrared learning	Built-in infrared receiver, support infrared learning function
Relay	Support 1 relay control signal trigger
IO	Support 1 IO input signal trigger
POE power supply	No need for external power supply, supply power through switch
12V power supply	Support
Power consumption	14W (maximum)
Weight	1.85Kg
Size	262×178×23.5mm
