

Description:

The conference information release terminal, by connecting to the conference management system, controls the program playback on the entrance screen, and realizes the display and release of digital conference information such as texts and pictures.

Feature:

- * Support the display of conference information, including custom display of the conference theme, conference room location & name, conference time, participants, etc.
- * Support the scene interaction of the conference entrance screen, and synchronize the agenda to the entrance screen.
- * Support the entrance screen sign-in function, the initiator can send the conference sign-in QR code to the entrance screen.
- * Support conference information cache, and offline playback function.

Specification:

Model	TR-0660
CPU	Rockchip RK3288 Quad Core Cortex-A17GPU Mail-T764
Main frequency	1.8GHz
RAM	2G DDR3 (support 4G maximum)
Built-in storage capacity	NAND FLASH comes standard with 8GB, supports EMMC
Network interface	1*RJ45, gigabit network port, support Ethernet
Video interface	Support 1 HDMI video output, support 1080P, support 4K*2K level output
External interface	4*USB
Real time clock	Built-in real-time clock power supply battery, support scheduled power on/off
Audio format	Support MP3, WMA, WAV, APE, FLAC, AAC, OGG, M4A, 3GPP formats
Video format	Support 1080P multi-video decoding of H.264, VP8, MAV, WMV, AVS, H.263, MPEG4 and other video formats, YouTube and other online videos, up to 4K*2K output
Picture	Support JPG, BMP, PNG and other image format browsing and support rotation/PPT playback/picture amplification
Power adapter	Input: AC100-240V/50-60Hz, output: DC 12V/2A
Operating system	Support Google Android 4.4.4/5.1
Size	155x105x21.5mm
