

TR-0646C Information Release Terminal

Embedded software: information release management service software V1.6

Description

Conference information release terminal is used to display conference information pushed by the conference platform, and the occupancy status of the conference room can be checked through the screen; Before the meeting starts, the terminal provides four convenient sign-in methods: scanning QR code, card sign-in, face sign-in and handwriting sign-in, providing a variety of convenient sign-in methods for users to choose from.

Feature

- * 21.5-inch capacitive touch screen, the front is made of fully tempered optical glass, has high light transmittance and anti-explosion performance, supports 10-point touch, supports 1920x1080 resolution, and has a display ratio of 16:9.
- * Support POE power supply to provide stable power supply for the device.
- * Built-in wide-angle high-definition wide-dynamic camera, which can recognize the faces of 5 people at the same time, providing accurate face recognition function.
- * Built-in card reader makes it convenient for users to use ID cards, access control cards, etc. to swipe cards.
- * Support setting scheduled power on and off and restart tasks in the background, providing convenient management methods.
- * Support batch adjustment of device volume to meet volume requirements in different environments.
- * Support background remote software version update to keep system functions updated and optimized.
- * Support customized display templates, which can easily display weather, LOGO, company name, fonts, forms and other information to meet personalized needs.
- * Using a simple and elegant interface design, you can know the availability and reservation status of the conference room in a timely and accurate manner.
- * Support four convenient sign-in methods: scanning QR code, card sign-in, face sign-in and handwriting sign-in, providing a variety of convenient sign-in methods for users to choose from.
- * Support the integration of OA, mobile APP, exchange, etc. to meet the needs of enterprises to maintain their original meeting habits and increase the display of conference room reservation information.
- * Support customization and flexible configuration. The product can be customized to meet various needs through hardware upgrades or additional installations, providing flexible configuration solutions. ,
- * Built-in relay module supports linkage control of magnetic door lock switch through face recognition.

TR-0646C Information Release Terminal

Embedded software: information release management service software V1.6

Specification

Operating system	Android8.1.0 supports local USB upgrade
CPU	RK3288 Quad Core 1.8GHz Cortex-A17
RAM	2GB DDR3
Memory	16 GB
Display screen	21.5-inch LED light source, resolution 1920x1080/60Hz, brightness ≥ 350 cd/m ²
Touch screen	G+G capacitive screen, supports 10-point touch mode, response time ≤ 10 ms
Camera	Built-in 5 million high-definition camera
Card reader	Built-in IC card reader, supports Mifare1/typea/14443a
WIFI	Built-in high-performance SDIO interface WiFi module, supporting IEEE 802.11 b/g/n
RTC real time clock	Support wmv, avi, flv, rm, rmvb, mpeg, ts, mp4, etc.
Power supply method	100V~240V,50-60Hz power supply or POE power supply
Interface	30W
Video format	USB2.0*2, HDMI*1, RJ45*1, DC12V*2 headphone*1, TF card slot (supports up to 128GB TF card)
Trumpet	2W*2 stereo speakers
Dimensions (L*H*D) mm	522.9*392.9*20.3mm
Material	Anodized frame + tempered glass + painted hardware back panel
Power consumption	≤ 30 W
Weight	7kg
Color	Black
