

Conference Content Management Terminal

TR-0760

Description:

The content management terminal, by connecting to the content management system, controls program playback on the entrance screen and realizes the display and release of digital conference information such as texts and pictures.

Feature:

- * Support the display of conference information, including the custom display of conference theme, conference room location and name, conference time, participants, etc.
- * Support scene interaction on the conference entrance screen, and synchronize the conference agenda to the entrance screen.
- * Support the entrance screen sign-in function; the initiator can send the conference sign-in QR code to the entrance screen.
- * Support conference information cache and offline playback functions.

Specification:

Model	TR-0760
CPU	Rockchip RK3288 Quad Core Cortex-A17GPU Mail-T764
CPU clock speed	1.8GHz
RAM	2G DDR3 (up to 4G)
Built-in memory	NAND FLASH comes standard with 8GB, supports EMMC
Network port	1*RJ45, gigabit network port, support Ethernet
Video interface	Support 1 HDMI video output, support 1080P, support 4K*2K output
Peripheral interface	4*USB
Real time clock	Built-in real-time clock battery, support scheduled power on/off
Audio format	Support MP3, WMA, WAV, APE, FLAC, AAC, OGG, M4A, 3GPP formats
Video format	Support 1080P multi-video decoding of H.264, VP8, MAV, WMV, AVS, H.263, MPEG4 and other video formats, YouTube and other online videos, up to 4K*2K output
Picture	Support JPG, BMP, PNG and other image format browsing; support rotation/PPT/picture scaling function
Power adapter	Input: AC100-240V/50-60Hz, output: DC 12V/2A
Operating system	Support Google Android 4.4.4/5.1
Size	155x105x21.5mm
