

Hanging Microphone

TS-P110DM

Description:

Stainless steel cylindrical design, built-in unidirectional polar microphone core, up to -38dB sensitivity, to meet ultra-long distance pickup. Ultra-wide frequency response range, high restoration of human vocal, built-in 48V phantom electric amplification processing circuit, long-distance high-quality sound transmission. It is used with a microphone processor.

Specifications:

Model	TS-P110DM
Microphone sensitivity	-38dB
Frequency response	100Hz~15KHz
Interface	Standard Balanced Output Terminals (Male)
Working temperature	-10°C~45°C
Relative humidity	20%~80%, no condensation
Power voltage	DC48V
Dimension	22*204mm
Weight	0.1Kg
