

Features:

- * Supports time synchronization via NTP network, which can achieve time synchronization with the school's NTP time server or IP broadcast system server.
- * Supports time correction via remote control.
- * With 3 inch and 0.8 inch digital tube display.

Specifications:

Model	T-6309LT
Panel Material	Brown plexiglass
Border Material	Aluminum
Display Material	3 inch and 0.8 inch digital tube
Control Method	NTP network automatic time adjustment
Product Life	≤10W hours
Power Supply	AC220V /50Hz
Power Consumption	< 10W
Power Cord Length	1.8 meters
Installation	Wall mount
Outlet Position	Upper left
Dimension	510x220x50mm
