

Data Converting Terminal

T-7713

Description:

Work with wireless remote control suite (T-7720), for conversion of RS-232 protocol and TCP/IP protocol to extend transmission distance.

Features:

- * Standard wall mounted design, excellent appearance.
- * With one standard RJ45 input interface and one RS-232 DB9 input interface
- * Compatible with router, switch, bridges, gateway, Modem, Internet, 2G, 3G, 4G, multicast, unicast, etc.
- * Can be used in any place with Ethernet access, support cross-subnet and cross-router transmission.
- * It supports remote hardware upgrade of the terminal, no need to upgrade at the local site, to reduce maintenance burdens and make more simple operation.

Specifications:

Model	T-7713
Communication Interface	DB9/Standard RJ45 input
Communication Protocol	RS-232
Communication Rate	9600bps
Environmental Temperature	5°C~40°C
Environmental Humidity	20%~80%relative humidity, non-condensing
Power Consumption	≤5W
Power Supply	DC12V 1A
Dimension	156 x111 x32mm
