

Landscape Garden Speaker

PA-750T

Material: plastic shell, metal iron mesh and iron bracket

Feature

- * Outdoor landscape garden speaker, unique shape design, streamlined appearance, plastic shell, iron bracket structure of metal iron mesh
- * The coaxial speaker is designed with a 5-inch woofer and a 1.5-inch tweeter, with a large sound radiation angle and full low-frequency sound quality.
- * Built-in high-performance copper wire audio transformer can reduce losses caused by impedance in the circuit
- * The grille adopts breathable cotton technology inside, which can prevent dust or liquid from entering and affecting the sound quality, protect the speaker, and increase the service life.
- * Adjustable bracket design can flexibly adjust the up and down angles, making it easy for users to operate and install.

Application

Suitable for: schools, hotels, corridors, etc.
