

Ceiling Speaker

T-105YK

Material: plastic and metal grille

Feature

- * High-quality ceiling speaker, plastic pot frame, metal mesh cover, spring pressing system, easy to install.
- * Full frequency unit design, enjoy the extraordinary experience of both music and human voice, experience the clear reproduction of human voice and the smooth response of background music.
- * The high-performance copper wire audio transformer is used to reduce the loss caused by impedance in the circuit.
- * Suitable for hotels, hotels, clubs, etc.

Specification

Power taps @100V	3W, 6W
Power taps @70V	1.5W, 3W
Impedance	Black: COM/Red: 3.3KΩ/White: 1.67KΩ
Sensitivity (1W/1M)	88dB ±3dB
Maximum SPL	96dB ±3dB
Frequency response (-10dB)	80Hz-20kHz
Speaker driver	5"×1
Cutout size	155mm
Dimensions	175×68mm
Weight	0.4kg
