

# Horn Speaker

## T-725AY

Material: Plastic

### Feature:

- \* Waterproof design, simple and beautiful overall appearance.
- \* High-quality plastic material, excellent mechanical properties, good impact strength, low temperature resistance, high temperature resistance, superior material stability and durability.
- \* Large arc design, high sensitivity, high efficiency, sonorous amplification, wide sound coverage and long transmission distance.
- \* Internal high-performance magnet, compressed driver head, high sound power output, strong sound penetration.
- \* Built-in high-performance 100V audio transformer can reduce the loss caused by impedance in the circuit, with multiple power options and flexible wiring methods.
- \* Use high-quality wires to meet long-term full-load use, anti-scalding, good conductivity, and safe use.
- \* U-shaped bracket design, 108 ° flexible rotation and adjustment, convenient for users to operate, install and debug.
- \* Suitable for outdoor places such as squares, villages and sports fields.

### Specification:

|                    |                         |
|--------------------|-------------------------|
| Model              | T-725AY                 |
| Rated power (100V) | 25W                     |
| Max power          | 50W                     |
| Impedance          | Black: COM, White: 400Ω |
| Frequency response | 300-13KHz               |
| Sensitivity        | 103dB±3dB               |
| Max SPL            | 117dB±3dB               |
| Protection class   | Ip66                    |
| Dimension (W×D×H)  | 282×210×280mm           |
| Weight             | 1.9kg                   |
