

Horn speaker T-770

Material: aluminum shell, aluminum mesh and metal iron back shell

Features:

- * One-way strong directional speaker with unique appearance design, composed of aluminum shell, aluminum mesh and metal iron back shell structure
- * Using a 6-inch full-range speaker unit design, the sound radiation angle is large, and the low frequency is full and the sound quality is clear.
- * Built-in high-performance copper wire audio transformer can reduce the loss caused by impedance in the circuit. It has multiple power options and can be set to a fixed resistance and a fixed voltage.
- * The upper and lower angles can be flexibly adjusted to facilitate user operation and installation.

Application:

Suitable for: Railway stations, bus stations, etc.

Specification

Power Taps @100V	7.5W, 15W
Power Taps @70V	3.75W, 7.5W
Impedance	Black: Com White: 1.3KΩ Green: 670Ω
Sensitivity	100dB ±3dB
Max. SPL	112dB ±3dB
Frequency Response	250Hz-14KHz
Speaker unit	6"×1
Dimensions	Φ172×282mm
Weight	2.46Kg
