

Feature

- * Waterproof design, simple and elegant overall style, outstanding product function design.
- * High-quality plastic material, excellent mechanical properties, good impact strength, low temperature resistance, high temperature resistance, superior material stability and durability.
- * Using a high-performance magnet 5-inch speaker unit, it features a large sound power output and outstanding vocal performance.
- * Built-in high-performance 100V audio transformer can reduce the loss caused by impedance in the circuit; multiple power options, and flexible wiring methods.
- * Using high-quality wires, it can be used at full load for a long time, with good anti-scald and conductivity capabilities; suitable for outdoor places such as railway stations, bus stations, large squares, corridors, and supermarkets.

Specification

Model	T-770AH
Rated power (100V)	2.5W, 5W, 10W
Rated power (70V)	1.25W, 2.5W, 5W
Impedance	Black: COM Green: 4KΩ Yellow: 2KΩ Red: 1KΩ
Sensitivity (1W/1M)	91dB±3db
Frequency response	130-15KHz
Speaker unit	5"×1
Protection class	Ip44
Dimension (W*H*D)	138×138×233mm
Weight	1.5Kg
