

Column Speaker

T-802HT

Features:

- * Two-way compact speaker system.
- * The system shell is designed with high-strength corrosion-resistant aluminum alloy material, with adjustable directivity, which can achieve constant directivity control in a wide frequency range.
- * Support the reproduction of clear sound in a space with long reverberation time or high background noise.
- * Outdoor dedicated.

Application:

- * Airports, high-speed railway stations, subway stations;
- * Various meeting places;
- * Outdoor concert venue.
- * Shopping centers and other places.

Specifications:

Model	T-802HY
Speaker unit	4 x 4.5 inches mid bass +4 hard ball top treble
Crossover frequency	4kHz
Input voltage	100V
Frequency range	80 Hz to 20 kHz@ -10 dB
Sensitivity (1m, 1W)	90dB(15°); 89dB(30°); 88dB(45°); 86dB(60°)
Maximum SPL	112dB±3dB
Speaker wire	2 core cabtyre wire, diameter 6 mm
Rated power	200W
Operating temperature	-15°C~+50°C
Cover	Aluminum alloy, white
Dimensions (H×L×W)	620x425x200mm
Weight	21kg
