

Column Speaker

T-802P

Material: Aluminium alloy

Description:

The outdoor waterproof sound column is designed with binary frequency, and the power amplifier module is designed with digital D class. Switching power supply, overcurrent protection, with lower noise, higher efficiency, less power consumption. Suitable for squares, schools, etc.

Specifications:

Model	T-802P
Power taps	30W
Input	~220V 50Hz
Frequency response (-10dB)	80Hz -20KHz
Speaker driver	4"x2 2.5"x1
IP rate	IP66
Dimensions	150 x 125 x 415mm
Weight	2.8kg
