

2 x 20W Mini Stereo Class-D Amplifier

(Balanced inputs + Bridge mode)

T-220AP

Features:

- * Compact size for tabletop or wall mounted design.
- * Digital high efficiency mini amplifier.
- * Stereo output 20 watts by two channels and bridged output 40 watts.
- * 2 Mic/line switchable inputs by phoenix connectors and 2 unbalanced aux inputs by dual RCA type.
- * Left and right master volume controls over Mic and music, bass and treble tone controls.
- * Left and right channel outputs by phoenix connector, bridged or stereo output two options with switch.
- * Speaker stereo outputs at 4Ω / 8Ω and speaker bridged output at 8Ω.
- * Built-in limiter for low noise and efficient operation, with limiter on/off switch, which make it suitable for laptop and iphone input.
- * DC 24V power adapter is included.

Specifications:

Model	T-220AP
Rated Power Output	2 x 20W (THD10% @ 4Ω1KHz)
Speaker Outputs	4Ω or 8Ω
Input	2 AUX inputs by RCA and 2 MIC/Line inputs by phoenix connectors
LINE	350mV/10KΩ
MIC Input	5mV/600Ω
Frequency Response	50Hz~18KHz (±2dB)
S/N Ratio(line)	Better than 85dB
THD	Less than 0.5% at 1KHz, 1/3 rated power
Efficiency	85%
Controls	Power switch, volume control
Indicators	Power
Protection	AC fuse, clipping, high temp & short-circuit
Power Supply	DC 24V
Dimensions	230 x 115 x 57mm
Finish	Panel: steel, black; Case: SPCC Panel
