

Controller

TL-LH9901

Specifications:

Material	Aluminum alloy
Input voltage	Micro USB DC 5V (can be connected to mobile power supply), DC 12V-24V input
Output port	TTL level signal & RS-485 ×1, DC 12-24V output
Number of driving points	3072 channels × 1; standard DMX512 lamp: 512 × 1; extended DMX lamp: 1024 × 1
Output power	<3W
Operating temperature	-15°C~60°C
Relative humidity	≤50% RH
Protection class	IP20 (prevent people from touching the internal parts of the machine, prevent the intrusion of foreign objects with a diameter greater than 12.5mm, no special protection against water or moisture)
Net weight	0.15Kg
Dimension (L×W×H)	126×65×23.5mm
