

Features

- *Color mixing: RGBW (red, green, blue, and white) linear color mixing with bidirectional rotating rainbow effect
- *Strobe: Both light source 1 and light source 2 support 0-15 times electronic strobe, the speed is adjustable, random strobe and pulse strobe can be selected
- *Dimming: 0-100% linear dimming
- *Lens disc: positionable, speed adjustable, infinitely reversible
- *Intelligent heat dissipation: lamp beads are equipped with temperature control protection; fan intelligent speed regulation

Specification

Input voltage	AC110V-240V 50/60Hz, 100W
Light source	Light source 1: 6*15W LED; Light source 2: 100mW semiconductor solid-state laser, wavelength: 520nm
Life expectancy	50000H
Control method	Self-propelled mode, DMX mode, voice control mode, slave mode
Channel	10 channels
Lighting material	V0 flame retardant ABS
Protection level	Ip20
Lamp size (L*W*H)	233*233*175mm
Packing size (L*W*H)	280*238*243mm
Gross weight	2.1kg
Net weight	1.45kg
