

# Moving Head Beam Light

## TL-LT881

### Feature:

- \* Color: 6 colors + white light, half-color effect.
- \* Fixed gobo wheel: 6 fixed gobos + 2 white light.
- \* Rotatable gobo wheel: 6 replaceable and rotatable glass gobos + 1 white light.
- \* Prism: rotating triangular prism effect.
- \* Cutting wheel: professional independent cutting module can cut various patterns in eight directions; with independent aperture mode, the patterns can be scaled up/down.
- \* Optical lens: high-precision glued optical lens.
- \* Focusing: linear focusing.
- \* Dimming: 0-100% linear adjustment.
- \* Strobe: electronic strobe.
- \* Scanning: Y-axis adjustable angle.
- \* LED screen + button control.

### Specifications:

Model	TL-LT881
Input voltage	AC110V-240V 50/60Hz, 800W
Light source	Appotronics LED640W light source
Color temperature	8000K
Average lifespan	20000H
Beam angle	5.5-50°
Motor	A total of 19 ultra-quiet high-temperature resistant low-volatility motors
Control mode	International standard DMX512 signal; support RDM protocol, support customized wireless signal
Channel	28 channels
Fixture material	High temperature resistant anti-ultraviolet anti-oxidation alloy plastic + national standard die-casting
Protection class	IP66
Fixture size (L×W×H)	385.8×290.5×669.5mm
Net weight	30.36kg
