

Stage Bubble Machine

TL-SL643

Feature

- * Equipped with 4 bubble wheels, it can continuously produce a lot of bubbles that are not easy to pop.
- * One-piece plastic housing, completely sealed base, liquid is not easy to spill when moving the device, and there is no problem of rust.
- * The large outlet powerfully blows bubbles upwards and at the same time recovers the bubble liquid so that it will not leak out.
- * It can be used with a wired controller or a wireless controller (optional) for simple operation. The novel and cute appearance is undoubtedly the best helper to create a climax of activities.
- * With a handle on top, plus optional lifting handle, it can be easily used in various celebrations, dances and exhibitions, etc.

Specification

Model	TL-SL643
