

# Draw Curtain Machine (Aluminum Alloy)

## TL-EM104

### Feature:

- \* Adopt the transmission mode of annular synchronous belt and redundant synchronous wheel.
- \* Redundant transmission box; curtain motors can be installed at both ends of the track, and 2 motors drive the transmission belt at the same time, which can realize long-distance opening of traveller curtains on the track.

### Specification:

Model	TL-EM104
Installation method	Whole machine installation
Power supply	380V/50Hz
Power	P4/750W
Rated speed	150rpm
Rated torque	46.5NM
Opening speed	0.012~1.2m/s
Operating noise	≤50dB(A)
Drive mode	Electric synchronous belt
Protection class	Ip44
Insulation class	Class F
Work mode	S1
Drive device	Variable-frequency variable-speed draw curtain device
Protective device	Stroke limit, mechanical limit
Dimension (L×W×H)	350×183×219mm
Weight	About 13kg
