

Feature

- *Installation type: track installation
- *Rated load : 4.0kn
- *Rated speed : 0.015-0.15m/s
- *Power supply : 380V/50Hz
- *Power : P4/1.1KW
- *Hoisting points : 6个
- *Positioning accuracy : $\leq \pm 5\text{mm}$
- *Running noise : $\leq 50\text{dB}$ (A)
- *Maximum stroke: 22m
- *Reducer model : K series
- *Rope winding form of boom machine : Multi-layer winding (double output shaft winch)
- *Safety measures : Double limit protection, double brake braking, limit protection
- *Equipment size : L730mm*W510*H370mm
- *Equipment weight : 104kg
- *Protection class : IP54
