

Specification:

1. Installation type: track installation
2. Load: 6.0kn
3. Operating speed: 0.015-0.15m/s
4. Power supply: 380V/50Hz
5. Power: P4/1.5KW
6. Number of hanging points: 6
7. Positioning accuracy: $\leq \pm 5\text{mm}$
8. Operating noise: $\leq 50\text{dB (A)}$
9. Maximum stroke: 22m
10. Reducer model: K series
11. Rope winding form of boom machine: multi-layer winding (double output shaft winch)
12. Safety measures: limit protection, double brake braking, limit protection
13. Equipment size: L730mm*W510*H370mm
14. Equipment weight: 117kg
15. Protection level: IP54
