

### Specification

Specification	3U
Color	black
Dimensions	L485mm*W440mm*H133mm
Installation method	19-inch standard cabinet horizontal installation
Wiring mode	motor signal wire-tube type cold-pressed terminal, AC/DC power line - 3-core ohm connector, RJ45 connector
Power input	AC220V, with green power input indicator light
Power output	DC24V
Network interface	an Ethernet port
Control signal interface	1
Programmable controller (PLC) I/O	12 input points/8 output points
Programmable controller (PLC) I/O expansion module	None, supports up to 6 expansion modules
Network communication	supports PROFINET communication, supports Ethernet communication between multiple PLCs, and supports open Ethernet communication-TCP, UDP, ISO_on_TCP, Modbus TCP and other communication protocols
Data transmission rate	10/100 Mbit/s
Number of output channels	four outputs
Net weight	about 8.4KG
