

## Four-way contactor control box

TL-EM912

### Specification:

1. Specification: 4U;
2. Color: black;
3. Dimensions: L485mm\*W440mm\*H183mm;
4. Installation method: 19-inch standard cabinet horizontal installation;
5. Wiring mode: AC380V input and output wires are connected with waterproof plugs, AC control power wires and motor brake wires are connected with 3-core ohm connectors; signal wires are connected with DB15 finished wires;
6. Control signal interface: 1 DC24V;
7. Motor interface: 4 AC380V;
8. Motor brake interface: 4 AC380V;
9. Power input: AC380V, level -3P+N+E; with yellow, green and red power input indicator;
10. Power output: AC380V, level -3P+E;
11. Power output: 4\*2.2KW
12. Protection level: Ip44;
13. Number of output channels: four channels of variable frequency switching control output.
