

Features

PLC controls 2 channels of opposite opening motor outputs. Each motor control includes upper and lower limit and overheating and overload protection input signals. The two motors of the opposite opening curtain can realize speed adjustment function independently, including industrial wireless remote control.

Specification

Model	TL-EM945
Cabinet	4U
Color	Black
Dimension	L485mm*W440mm*H183mm
Installation method	19-inch standard cabinet horizontal installation
Wiring method	Motor signal line - tubular cold-press terminal wiring
Power input	AC220V, level L+N+E; with green power input indicator light;
Power output	AC220V, series-3P+E
Output power	2*1.1KW
Power outlet	1*DC24V (spare)
Network interface	1 Ethernet port (spare)
Motor limit interface	1*DC24V
Remote control interface	1*DC24V
Remote control range	Barrier-free control within 100 meters
Control button	4*DC24V
Emergency stop button	1*DC24V
Toggle button	1*DC24V
Programmable Logic Controller (PLC) I/O	12-bit input/8-bit output
Programmable Logic Controller (PLC) I/O Extension Module	None; support 6 extension modules maximum
Data transfer rate	10/100Mbit/s
Output channel	2 frequency conversion control outputs
Weight	About 14.4KG
