

Follow Spot Light

TL-SL391

Feature:

- * No need to preheat, with double focus linear amplification function, this follow spot light is a perfect combination of excellent humanization and industrial design, beautiful appearance, light weight, high illumination, and uniform light spot. The lamp body is designed with aluminum alloy and high-temperature resistant engineering plastics, which has good heat dissipation effect. The lamp body uses an ultra-quiet fan for heat dissipation. The product fully complies with CE standards. The new high-end LED follow spot light is a high-power follow spot light. It mainly uses light beams to highlight actors or other special effects when the stage is completely dark and semi-dark, or to provide fill-in light for actors. Follow spot light can change into various colors. It has many advantages such as compact size, light weight, convenience and so on. Very suitable for weddings, large, medium and small performances, catwalks and bars
- * Control mode: manual, stand-alone mode
- * Optical system: high-precision quartz lens aspheric combination
- * Aperture effect: Aperture size is adjustable
- * Projection distance: beam angle 6-15°, projection distance 80 meters
- * Color: a color wheel with 5 colors (white light, red, green, blue, purple, yellow)
- * Heat dissipation system: high-intensity air cooling + pure copper heat dissipation + nano thermal conductivity + aluminum profile heat dissipation
- * Safety measures: complies with various safety standards, IP20 protection level, and the power cord complies with CE20/22 level three standards

Specifications:

| | |
|--------------------|------------------------------|
| Support voltage | AC90V~240V, 50Hz/60Hz |
| Power consumption | 450W |
| Light source life | 50000H |
| Control system | Self-configured knob control |
| Control mode | Single machine manual mode |
| Protection level | IP20 |
| Shell | Aluminum alloy edging |
| Lamp net weight | 20KG |
| Light stand weight | 4.5KG |
| Gross weight | 50KG |
| Product Size | 940*350*450mm |
| Carton size | 960*370*470mm |
| Flight case size | 860*540*620mm |
| Flight case weight | 25KG |
